

ACS INSECT KILLER AEROSOL

This product is intended for use in and around residential structures and their immediate surroundings. It can also be used in and around food manufacturing and warehousing establishments, food service establishments, hospitals, hotels, kennels, meat-packing and food processing plants, motels, nursing homes, recreational vehicles, restaurants, schools, supermarkets, tents, theatres, transportation equipment, warehouses and utilities.

DIRECTIONS FOR USE

Directions for Use:

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

FOR CRACK AND CREVICE TREATMENT: Apply insecticide directly into cracks and crevices or voids using the injection tube. Place injector tip 1/2 inch into cracks and crevices, holes and other small openings. Release approximately 1-second spray per spot. For serious infestation, place spots approximately 12 inches apart. For light infestation or for preventative treatment, place spots approximately 3 feet apart. In long running cracks, move injector tip along the crack while spraying at the rate of 3 linear feet per second. For heavily infestation, move the injector tip along at 1 linear foot per second. For inaccessible, closed voids, calculate the voids cubic area and treat at rate of 5-10 seconds per cubic foot. Several holes may be required in long-running voids. SEE LABEL FOR COMPLETE DIRECTIONS FOR USE.

**Please consult your ACS sales Representative or call 1-800-889-3489 for additional use directions.*

GENERAL PRODUCT INFORMATION

Description: Aerosol Insect Killer
